

AGN. NO. _____

MOTION BY SUPERVISOR DON KNABE

March 26, 2013

Organ, tissue, marrow and blood donation are life-giving acts recognized worldwide as the greatest expression of compassion to those in need. More than 116,000 individuals nationwide and more than 20,000 in California are currently on the national organ transplant wait list, and every 90 minutes, one person dies while waiting due to the shortage of donated organs. A single individual's donation of the heart, lungs, liver, kidneys, pancreas, and small intestine can save up to eight lives, and donation of tissue can save and heal the lives of up to 50 others.

Each year, millions of lives are saved and healed by donors of organs, tissues, marrows and blood and the quality of life for many hundreds of thousands more is enhanced by organ and tissue donation and transplantation. Nearly ten million Californians have signed up with the State-authorized Donate Life California Registry.
